

# Complete Collagen Peptides

A blend of bioactive collagen peptides for complete structural support of the joints, bones, skin, nails and intestinal tract. Standardized molecular weights for optimal absorption and easy mixing.

Each scoop contains:

Peptiplus® Bioactive Collagen Peptides™ 5g

Type I and III Hydrolyzed Collagen (bovine)\*

**PEPTIPLUS®**  
Collagen Protein

250 grams powder

GMO, antibiotic, hormone, gluten, soy and dairy free.

Collagen is a major component of our connective tissue and plays a role in the health of our overall physiology.

**Complete Collagen Peptides** contain a unique blend of **Type I and Type III bovine peptides** known as PeptiPlus®. These peptides are designed to support complete collagen synthesis throughout the body.

Research indicates the integrity of our tissue can be maintained and improved by supplementing with collagen peptides. However, not all collagen is created equal.

The molecular weight distribution, specific amino acid sequencing and the bioactivity of collagen peptides are factors in the effectiveness

and ability of peptides to stimulate endogenous collagen production.

**Cyto-Matrix Complete Collagen Peptides** are unique in formulation. This complete range of peptides are bioactive in form and support total collagen production throughout the body. The molecular weight of these peptide chains are standardized to contain predominantly small peptides that allow for optimal absorption.

**Complete Collagen Peptides** help counterbalance methionine levels in the methylation cycle, lower inflammation and improve extracellular matrix production in a wide variety of tissues. These hydrolyzed peptides are proven

## Key Points

- Contains bioactive collagen peptides that are standardized for molecular weights, with predominately small peptides to optimize absorption
- Designed to provide a blend of evidence-based collagen peptides for general use and the support of healthy tissues, including joints, bone, skin, nails and the intestinal tract
- 1 scoop provides 5 grams of bioactive collagen peptides. Mixes well with minimal taste
- 50 servings per container

to be beneficial for joints, bones, skin, nails and the intestinal tract.

These peptides are sourced from grass-fed, pasture-raised cows and free from added hormones and antibiotics.

**Complete Collagen Peptides** contain 250 grams (50 servings)

of complete bioactive collagen peptides per container.

1 scoop provides 5 grams. 1-2 scoops per day is recommended.

Mixes well and has minimal taste.

**Non-Medicinal Ingredients:** None

**Indications:** Source of essential and non-essential amino acids involved in protein synthesis and lysine to help in collagen formation. Helps to reduce joint pain associated with osteoarthritis.

**Directions:** Adults - Mix 1-2 scoops in water, 1 time per day or as directed by a healthcare professional.

**Duration of use:** For joint pain, use for a minimum of 5 months to see beneficial effects.

**Warnings:** Do not use if safety seal is broken. Consult a healthcare professional prior to use if you are pregnant or breastfeeding.

**Known adverse reactions:** May cause mild gastrointestinal disturbances.
